## LIVE STOCK MARKETS.

CHICAGO, April 27.—The situation in cattle today was not good. The supply being larger than usual on Friday and the demand called for less than the usual number, sellers were at a disadvantage.
Trade opened slow and late and generally
at a decline of 5 and 10 cents. These
figures scarcely covered the reductions
sellers were obliged to submit to later in the day, sales made after about 10 o'clock-indicating a decline of 10 and 15 cents as compared with the best prices of yester-day. Heavy cattle were especially dull. The greater part of the steers sold at \$3.60@4.10, and \$4,60 was considered about the top of the market. Butchers' stock was not materially lower and sales of stockers and feeders did not show any important decline. The calf market was dull at the reduced prices established earlier in the week. Sellers of hogs had an inning today, the day, sales made after about 10 o'clock

Sellers of hegs had an inning today, the market being brisk at a good advance on yesterday's close. The first sales of the day did not show any radical change, but as the morning advanced demand increased and prices grew steadily stronger, the last sales being the best of the day. Orders called for larger number of hogs than on either of the preceding days of the week and the offerings were inadequate. Sales of merchantable lots were \$5.10ef5.35. Not many of the 24,000 head on sale went below \$5.20, from 24,600 head on sale went below \$5.20, from \$5.25 to \$5.30 taking the great bulk. Their gray is the natural color of some of their sheep; so are their white and black. They produce a deep yellow from the alder boiled in water and afterward mixed with impure native alum. A dull red is produced from alder bark. Black is also obtained from the aromatic sumac, yellow ochre and the gum of a species of pine. The last dve is essentially an ink. Most of these dyes are produced by elaborate and laborious processes, but the Navajos also use dyed wools made in eastern mill-

General Attack by the Bears-General Market Heavy- Bradstreet's and Dun's Reviews,

NEW YORK, April 27.-The speculative interest on the Stock Exchange today was largely centered in Sugar, with the granger stock and Chicago Gas shares to a lesser degree noticeable in the activity of the market. Outside of these shares, with perhaps the single exception of Distilling which made a good show in the transact tions, trading was exceptionally dull. Sugar touched 103, the highest point reached in many months and which was an advauce of 3 per cent on yesterday's closing price, and the close showed an advance of 1% for the day. NEW YORK, April 27.-The concensus of pinion after the sale of 2,000 packages of blankets is that the results are much more satisfactory than thought during the sale. It is admitted that some goods went very low, but the average of the sales is well, and much better than either of those that preceded it. The amount of the sale exceeded \$400,000. The result of the sale upon the market is already seen in a better tone which buyers are not slow to remark. With the sale over, many buyers gave considerable attention to other goods and same business was done in dress goods.
